Profile

Omar Ghauri is the COO of NetSol Technologies Ltd. – Pakistan’s largest IT Company – a post he assumed in 2012. As COO, he is managing and leading all of company’s operations and delivery of NetSol’s Flagship product NFS .

With 12 years of vast and extensive experience in the IT industry (11 years with NetSol), Omar is committed to driving an innovative, impactful and diligent team of engineers. Omar’s journey with NetSol started off as a Business Analyst in 2004 where he analyzed and refined the business and functional requirements of new projects. In 2007, he became the Service Manager for NFS where his prime responsibility was to ensure customer satisfaction and bridge the gap (if any) between customers and development teams. From 2008 onwards, he has progressed over the career ladder with utmost zeal and determination until finally becoming in charge of NFS – NetSol’s Flagship product. Mr. Ghauri established NFS as a global product and through his unparalleled leadership skills, NFS is global software product with an impressive customer base. Through his leadership NFS today is a global software product with an impressive customer base including several fortune 500 companies. The product is currently implemented in 17 countries, across five continents and has consistently increased its contribution in the organizational revenues over the years.

His experience in both senior and junior roles, over his career history, is a testament to the fact that he has a vast set of skills ranging from leadership to strategic thinking. He is a passionate lead, driving a team of 1500+ skilled resources towards success.

Having earned a Bachelor’s degree in Computer Information Systems (CIS) from James Madison University, USA in 2002, Omar Ghauri is playing a vital role in leading and managing the enterprise.
