

VASEEM ANVAR
CHIEF EXECUTIVE
ECHO WEST INTERNATIONAL PVT. LIMITED
113/E-I, Gulberg – III, Lahore – Pakistan
C: +92 300 8441645
E: v.anvar@echo-west.com

Vaseem Anvar has been actively and rigorously participating in the engineering and construction industry to witness its dynamic growth in Pakistan. Vaseem is an individual with thorough understanding of business concepts, business philosophies, business strategies, business environments, organizational behaviors, and social/culture impacts on business processes.

Very well known for his leadership skills and hard work attitude has proven him an exuberant Chief Executive within the organization. Indeed, he is guiding his own success by following his own principle of 'value the elements of determination, commitment, zeal, and details that have always been the guiding path for your life.' Pertaining to these elements towards his thriving business career, he empowered himself to lead the organization to new horizons in making it one of the largest engineering construction companies in Pakistan.

Vaseem attained his B.S. in Economics and Construction Management from the highly regarded educational institution, University of California at Berkeley. After obtaining the MBA degree from the highly accredited / respected Stanford University, with the emphasis on Global Financial Expansion and Cutting Edge Competitiveness, he joined Echo West International. That was the moment when he could accumulate all of his leadership abilities, skills, training, learning, and positive behavioral approach to prove himself as an energetic, visionary, and dedicated person.

In a shorter period of time, under the guidance of Vaseem Anvar, the firm became a major player in executing the prominent Commercial Building Projects and large size Infrastructure Projects in the areas of Oil & Gas Plants, Oil Refineries, Power Plants, Industrial & Petrochemical Plants, Water Sector (Hydroelectric Power Plants, Dams, Drainage and Irrigation), Airports, Roads, and Bridges in US and Pakistan.

Vaseem's personal commitment to building quality projects and constant stress on client satisfaction is prominent from the successful operations of the firm and the level of success they have achieved all along. His contributions are not only limited to the successful execution of the projects, but also establishment of successful financial consortiums to handle the mega projects in association with the world renowned multibillion dollar firms (Fortune 500 Companies).

28 years of experience in areas of design, planning, construction, construction management, real estate development, planning & development, and vision under the management of Vaseem Anvar, the firm has experienced consolidated growth in the Pakistan market.

Simultaneously, Vaseem is a social and family-oriented person. Vaseem and his wife (who also an entrepreneur working on women empowerment) along with four of their children live in the city of Lahore in Pakistan. The entire family loves spending time among their own families, social & business networking groups, travelling, and reading.

Indeed, he is guiding his children even at their young age to learn the values of hard work, strength of family, and commitment to community, which he learnt from his parents. He positioned himself on same spectrum to apply these values to a successful business career and loving family.

Being President and active member and part of the Board of Governors of American Business Forum (ABF), he has taken the challenge to make ABF as one of the most prominent organization that protects USA businesses' interest and continuity in Pakistan and to attract Direct Foreign Investment (DFI) from the US into Pakistan. Vaseem is one of the founder of this chapter. He has been developing and implementing innovative solutions and policies to help lead ABF in the times to come. He is also a member of Lahore Chamber of Commerce and serve as an independent Director on NETSOL Technologies (Pakistan's leading Software Company).
